

Compact Image Set up Instructions

1

Opening The Frame

Remove frame from case and remove black strap on outside of frame.

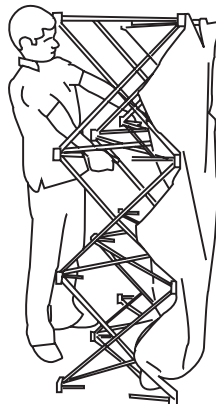

Grab outer scissors along one edge of frame and pull upwards and out.

2

Fully Opened Frame

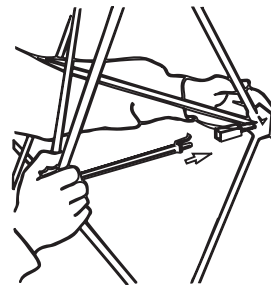

Continue to expand frame until locker bars can be snapped together as shown in next step.

3

Snap Locker Bars Together

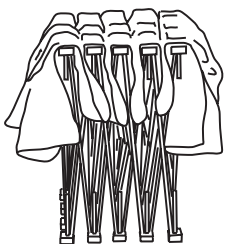

Lock one set of lockers together to support frame. Then lock remaining locker bars.

Packing Instructions

A

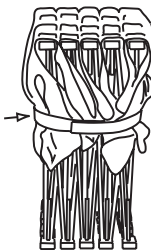

Release all locker bars and then collapse frame.

B

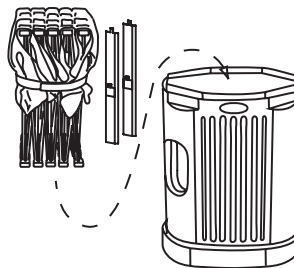

Wrap black strap tightly around frame.

Black nylon strap with hook & loop fastener

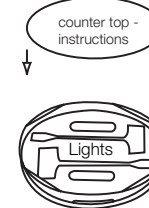

C

Pack frame and bag in center of case. Stabilizing feet should be packed along the side of the case.

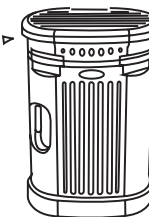

D

Counter top snaps inside lid holding lights in.

Allow lights to cool before packing.

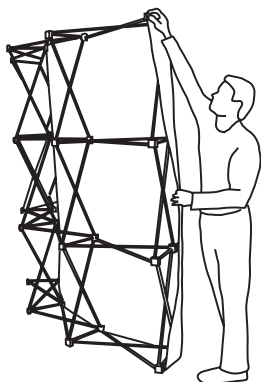

Accessories

4

Attach end panels

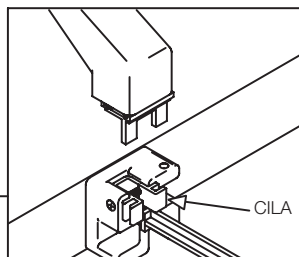

Beginning at the top hub, wrap end panel around end of frame and attach to back hubs.

5

Add lights

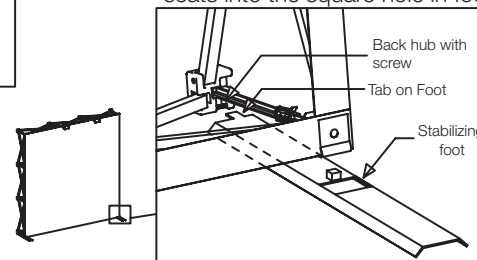

L8 lights slide into CILA on back of top hubs

6

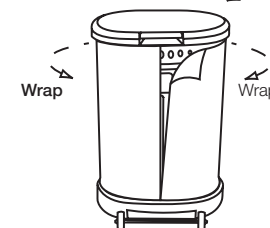

Add Stabilizing feet

Tilt frame back, Slide foot back so tab goes over screw in back hub. Let frame down so that front hub seats into the square hole in foot.

7

Case to Counter Wrap
